. .

**Facility Energy Efficiency**: Agencies are assessed on meeting or exceeding the statutory goal of a 30% reduction in Btu/GSF from a 2003 baseline and demonstrating a reduction from the prior year. OMB will also track agency's average cost of all facility energy.

Agency achieved <u>&gt;</u> 30% reduction compared to 2003	Agency achieved <u>&gt;</u> 30% reduction compared to 2003	Agency did not achieve a 30% reduction in energy
AND achieved a reduction in energy intensity from	<u>OR</u> achieved a reduction in energy intensity from the	intensity compared to 2003 AND did not achieve a
the prior year.	prior year.	reduction in energy intensity from the prior year.

**Identification of Efficiency Measures/Investment**: Agencies are assessed on EISA 432 facility evaluations, identifying ECMs, and whether performance contracting was utilized in the fiscal year. OMB will also track investment levels and annual Btu saved per \$1 of investment.

within last 4 years AND agency awardedlast 4 years <u>OR</u> agency awarded performancewithin last 4 years & agency did not award anyperformance contracts in the fiscal year.contracts in the fiscal year.performance contracts in the fiscal year.	290% of facility evaluations completed/updated	>75% facility evaluations completed/updated within	<75% of facility evaluations completed/updated

increased percentage of sustainable buildings or GSF	percentage of sustainable buildings or GSF from the	decreased percentage of sustainable buildings or GSF
from the prior year.	prior year.	from the prior year.

**Fleet Management**: Agencies are assessed on meeting or exceeding a 20% reduction in petroleum use compared to 2005 and demonstrating a reduction from the prior year. OMB will also track other fleet measures to help agencies manage fleets and meet statutory requirements.

Agency achieved <a>20% reduction in petroleum use</a>	Agency achieved <a>20% reduction in petroleum use</a>	Agency did not achieve a 20% reduction in petroleum
compared to 2005 AND achieved a reduction in	compared to 2005 OR achieved a reduction in	use compared to 2005 AND did not achieve a
petroleum use from prior year.	petroleum use from prior year.	reduction in petroleum use from prior year.

**Sustainable Acquisition:** Agencies are assessed on the change from prior year performance of the percentage of contract actions and dollar value of sustainable acquisitions as reported in the FPDS, which include the mandatory clauses for the purchase of biobased, energy-efficient, recycled content and other sustainable attributes.

Agency increased percentage of sustainable	Agency increased percentage of sustainable	Agency's percentage of sustainable acquisitions from
acquisitions of total actions (both number of actions	acquisitions of total actions (either number of actions	total actions (number of actions & dollar value)
& dollar value) from prior year percentage levels.	or dollar value) from prior year percentage levels.	remained the same or decreased from prior year.

Greenhouse Gas Emissions: Agencies' GHG emission reductions compared to FY 2008 base year will be determined from its annual data report and tracked and reported as an indicator on the Scorecard.
